Dear,

We, the Ahmedabad Family Physicians Association, have privileged to host Annual Conference of Family Physicians.

It is our pleasure and pride to invite you with your family to this 12th GSFPF Convention & 18th AFPA Conference.

We are in an era of where giant strides in technology have completely changed the perspective of healthcare. It has helped in breaking all the barriers and removed the boundaries and limitation of time, space and money. Healthcare has been shifted from being reactive to protective and from sickness to wellness. We, the Family Physicians, will be basic nuclei from which such changes occur.

It is an opportunity to update knowledge and experience in two short days which would otherwise take a year of reading and attending meeting.

The focus of this conference would be the share of the knowledge on recent advances, family practice experiences, and panel discussion and have practical workshops. It would also focus of usage of technology and telemedicine to enhance and provide better medical care, thus creating a proficient and healthy family unit.

Dear,

We family physicians are the doctor of first & last resort-from common cold to cancer. We offer easily accessible, affordable, continuous & comprehensive care to families & are responsible for total health care needs.

We are organizing annual conference for family physicians under the banner of Ahmedabad Family Physicians Association 4th & 5th January, 2020 at Ahmedabad.

The mission of conference is to improve the quality of life of the people of India through by fostering & maintaining high standards of care in family medicine by promoting personal, comprehensive & continuing care for the individual in the context of family & the community. This can be achieved by encouraging & supporting the development of academic associations of family physician providing a forum for exchange of knowledge & information between them.

Over 400 Indian family Physicians are expected to attend the event. The conference will have keynote address, workshop & round tables on family practice, free papers of scientific research & continuing education tips. Interesting programme for spouses also has been planned out.

This annual Conference is a unique opportunity to showcase your company & your products to the elite family physicians of India. You will have undivided attention of over 400 doctors for 2 days at a stretch. Our offerings are very attractive & cost beneficial to your organization.
